## PREFATORY NOTE

The *Abstract of Statistics of Local Government Areas* is designed to meet an evident demand for statistics presented on the basis of areas smaller than that of the State as a whole or of the Divisions of the State. This issue is the seventh of an annual series.

The *Abstract* provides a range of information for each Local Government Area in Western Australia. Although some of the material has been specially compiled, the greater part of it has been abstracted from tables already appearing in other printed and mimeographed publications of this Office. Census data have been taken from publications prepared and issued by the Commonwealth Statistician.

The *Abstract* does not give a complete account of development in any single Local Government Area since each item selected for inclusion is such that it has a wide general application and thus represents an activity or characteristic occurring in all, or many, Local Government Areas. For this reason some items, though they may be important to Western Australia as a whole or to a particular part of the State, have not been included. Again, some information is not available or is not readily obtainable for Local Government Areas. Furthermore, data cannot be given for a particular Area in cases where publication would be a breach of the provisions of the Statistics Acts, which require that the contents of any individual statistical return shall be treated as confidential. In these instances items have been marked *Not available for publication*.

While the principal aim of the *Abstract* is to provide statistics of individual Local Government Areas as in Table 1, it has been thought desirable to include a summary of these data on a broader geographic basis. This is the purpose of Table 2, where particulars are given for each of the eleven Statistical Divisions, which constitute significant areas for the publication of statistics in a convenient and readily appreciable summary form. The Statistical Divisions and their component Local Government Areas are shown on the map appearing at the back of the *Abstract* and are listed on page 28. In Table 1, Local Government Areas have been arranged alphabetically within each of these Divisions, and to facilitate reference to the Table an index list of Local Government Areas is provided on page 27.

Perth, Western Australia,

and Government Statistician.

### AUSTRALIAN DECIMAL CURRENCY

On the 14th February, 1966, as provided by the Currency Act 1965 a dollar (\$) /cent (c) decimal currency system, with one dollar equal to 100 cents, was introduced in Australia.

The relationship between pounds, shillings and pence, and dollars and cents, as prescribed in Section 8 of the Act is as follows :—

1 pound	=	2 dollars (\$2)
1 shilling	=	10 cents (10c)
1 penny	=	$\frac{2}{3}$ ths of a cent ( $\frac{2}{3}$ c)

In this publication, all monetary amounts have been converted to their equivalents in the new system.

The Australian dollar (\$A) is equal in value to eight shillings sterling or \$US 1.12.

---

**Rounding of Figures.**—Monetary amounts for Items 100 to 104 in Table Nos. 1 and 2 have been rounded to thousands of dollars without making those adjustments which would be needed to make the rounded figures add to the rounded total. It is for this reason that the figures do not in every case add to the totals shown in the tables.

## EXPLANATORY NOTES AND DEFINITIONS

- Items 2, 3     The figures shown are estimates only. They represent the numbers actually recorded at the 1961 Census count brought forward by taking account of the best information available from a number of sources as to post-censal changes.
- Item 2     These estimates are based primarily on dwellings existing at the Census of the 30th June, 1961 and statistics of subsequent completions to the 30th June, 1965. Where data were available, account has been taken of demolitions, removals and conversions. Unoccupied dwellings are included.  
For census purposes, a "dwelling" is any habitation occupied, or for occupation, by a household group living together as a domestic unit, whether comprising the whole or only part of a building. The term has, therefore, a very wide reference and includes, in addition to houses and flats, a great variety of "dwellings" ranging from a single-roomed shack to a multi-roomed hotel or institution.
- Items 3-37     *Full-blood aborigines are excluded.*
- Items 4, 5     Figures shown do not necessarily represent the numbers of births or deaths actually occurring in a particular Local Government Area, births being attributed to the usual place of residence of the mother and deaths to the usual place of residence of the deceased. Figures are compiled according to date of registration and not date of occurrence.
- Item 6     Persons were enumerated at the place where they spent the night of the Census, and the population so recorded has been credited to that place whether or not it was the usual place of residence.
- Item 18     Excludes widowed and divorced persons and persons married but permanently separated.
- Item 22     For census purposes, industry may be defined as any single branch of productive activity, trade or service. It is concerned with the activities of persons, firms or businesses *considered as a group* producing the same commodity, performing the same process or providing the same service. All persons engaged in any such branch of economic activity are classified industrially as belonging to that particular branch irrespective of their personal occupation within the industry.  
Persons engaged in industry, even though not actually working at the time of the Census, were asked to state the branch of industry in which they were normally engaged. For this reason, figures may appear against an industry not carried on in the particular Local Government Area under which they are shown. Generally, such figures represent persons temporarily absent from their usual place of residence.
- Item 23     Includes Fishing, Hunting and Trapping ; Agriculture, Grazing, Dairying, Pig and Poultry Farming, and Bee Keeping ; and Forestry.
- Item 26     Comprises construction and repair of buildings and construction and maintenance works such as those associated with roads, railways, bridges, harbour and river works, aerodromes, electric power, water conservation, irrigation and sewerage.
- Item 27     Includes road, rail and air transport, shipping and stevedoring, and post, telegraph and telephone services (including construction and maintenance of telegraph and telephone lines).
- Item 28     Includes banks, insurance offices, friendly and benefit societies, house and estate agencies, building societies and trustee companies.
- Item 29     Comprises wholesale and retail trade ; wool, skin and produce dealing ; and stock and station agencies.
- Item 30     Particulars included for *Public authority (n.e.i.)* are residual figures comprising persons in the administrative sphere of general government and local government *who have not been classified elsewhere*. They do not, therefore, represent the total numbers of persons engaged in or attached to all fields of government service, Commonwealth, State or Local. For example, many employees of the Public Works Department or of Local Government Authorities have been assigned, in accordance with evidence contained in their Census schedules, to Item 26, *Building and construction*.
- Item 31     Includes police and fire brigades, hospitals, education, professions such as law, medicine and architecture, and business services such as consultant engineering and surveying, accountancy and auditing, industrial and trade associations, advertising, etc. Particulars include not only qualified practitioners, but also persons employed by them as, for example, receptionists, clerks and draftsmen.
- Item 33     Of the total of 8,965 persons shown against this item for Western Australia, 4,706 were classified to Electricity, Gas, Water and Sanitary Services (production, supply and maintenance). The item includes also 4,254 persons whose industry was inadequately described or not stated.
- Item 34     The *Work Force* comprises persons of all ages who are (i) employers, (ii) self-employed (*i.e.* working on own account but not employing others), (iii) employees on wage or salary, or (iv) helpers not receiving wage or salary. It includes persons usually engaged in work but not actually working at the time of the Census on account of sickness, accident or industrial dispute, inability to secure employment or for any other reason.
- Item 38     See note to Item 2 for definition of *Dwelling*. *Occupied Private Dwellings* comprise Private Houses ; Sheds, Huts, etc. ; Shares of Private Houses ; Flats ; and Rooms, Apartments, etc.
- Items 39-53     *Particulars of dwellings occupied solely by full-blood aborigines are excluded.*
- Item 41     A *share of a private house* is a portion of a shared private house which is occupied separately and for which portion a separate Householder's Schedule was furnished at the Census.
- Item 42     A *flat* is part of a house or other building which can be completely closed off and which has its own cooking and bathing facilities.
- Item 43     *Other private dwellings* include dwellings such as rooms, apartments, etc., which are parts of buildings but are not self-contained units.
- Item 45     *Occupied private houses* include houses ; sheds, huts, etc. ; and shared private houses for which only one Householder's Schedule was received.
- Item 49     Includes houses occupied by caretakers and houses where the nature of occupancy was not stated.

- Item 51 Excludes particulars of houses occupied by persons who stated that they were tenants paying rent to the State Housing Commission.
- Item 53 Excludes particulars of flats occupied by persons who stated that they were tenants paying rent to the State Housing Commission.
- Item 54 In Western Australia, there is no single authority responsible for the licensing of motor vehicles. The Traffic Branch of the Police Department licenses vehicles in the Metropolitan Traffic Area, which comprises the whole of the Metropolitan Statistical Division (see *List of Statistical Divisions* on page 28) and that part of the Swan Division consisting of the Shires of Cockburn, Gosnells, Kwinana and Rockingham in their entirety and parts of the Shires of Armadale-Kelmscott, Mundaring and Swan-Guildford. Outside this Area each Town or Shire is responsible for the licensing of motor vehicles in its own district.
- The Traffic Act provides for the registration of motor vehicles throughout the State, but those owned by the Commonwealth Government are not required to be licensed under the Act. At the 31st December, 1965, there were in Western Australia 1,394 Commonwealth-owned vehicles (excluding those of the defence services), listed with the Commonwealth Registry, Canberra. The vehicles so listed cannot be classified according to Local Government Area and are therefore excluded from the figures appearing in the Abstract. They comprised 144 motor cars, 175 station wagons, 1,039 utilities, vans and trucks, 19 omnibuses and 17 motor cycles.
- Item 59 The figures shown relate to the retail trading activities of establishments, including hotels, garages and service stations, with retail sales of \$1,000 or more during 1961-62, which normally sell goods by retail to the general public from shops, rooms, kiosks and yards. Establishments such as licensed clubs, canteens, laundries, dry cleaners and motion picture theatres are not included.
- In comparing figures from the 1961-62 Census with those for 1956-57, as published in the Abstract prior to the fifth issue (1964), certain points of difference should be noted. Sales of builders' hardware and supplies; business machines and equipment; grain, feed, fertilizers and agricultural supplies; and tractors were included in the 1956-57 Census but excluded from the 1961-62 Census. Also, in the 1956-57 Census sales of new motor vehicles made on a commission basis through country agents were generally shown in statistics for the Metropolitan Statistical Division (where the businesses of the principals are mainly located) but in the 1961-62 Census, sales of new motor vehicles were included on the return of the establishment which made the sale to the final consumer, irrespective of whether the sales were made by a commission agent or a principal.
- Item 60 See note to Item 59.
- Item 62 Comprises Agriculture, Grazing, Dairying, Pig and Poultry Farming.
- Details for Towns outside the Metropolitan Statistical Division are combined with those for the surrounding or adjacent Shire (except in the case of the Town of Bunbury, for which separate figures are shown). Thus, particulars for the Towns of Albany, Narrogin and Northam are included with those for the Shires of the same name, those for the Town of Geraldton with the Shire of Greenough and for the Towns of Kalgoorlie and Boulder with the Shire of Kalgoorlie.
- Item 63 A rural holding is defined as a piece of land of one acre or more in extent used for the production of agricultural products or for the raising of livestock and the production of livestock products. Holdings on which poultry are kept commercially or on which hatcheries are operated are also included, even though less than one acre in area.
- Item 64 Comprises persons of all ages residing permanently on rural holdings at the 31st March, 1965, including those temporarily absent but excluding guests and visitors.
- Item 67 The figures relate to males working on holdings at the 31st March, 1965 and include owners, lessees, tenants and share-farmers as well as employees on wage or salary and helpers not receiving wage or salary.
- Item 68 Excludes areas of pasture cut for meadow hay but includes areas under orchards and vineyards shown separately in Items 82 and 86.
- Item 70 *Other cleared land* comprises land cleared during the season, land in fallow and cleared land used for grazing or resting during the season.
- Item 71 Includes uncleared land used for grazing.
- Item 72 In some instances the *Total Area of Rural Holdings* exceeds the area of the Shire as shown in Item 1. This is due to the fact that in cases where a holding extends across the boundaries of adjacent Shires the total area of the holding is attributed to the Shire in which the homestead is situated.
- Item 73 As at 31st March, 1965. Comprises tractors of wheel and crawler types.
- Items 80, 81 Comprises oats, wheat, meadow and other hay. "Other hay" includes hay cut from barley, sorghum, lucerne, field peas, vetches, rye and sudan grass.
- Item 82 Includes areas of bananas, passion fruit, strawberries and other berry fruit.
- Item 85 Comprises production of apricots, cherries, nectarines, peaches, plums and prunes.
- Item 87 Numbers relate to livestock on rural holdings at the 31st March, 1965.
- Items 89, 90 Owing to a change in the detail collected in the annual census of livestock, separate particulars for dairy cattle and beef cattle are not available for the 31st March, 1964 and 1965 on the same basis as for 1963 and earlier. The figures shown under items 89 and 90 relate to cattle classified according to the principal purpose for which they were kept, irrespective of breed.
- Items 92, 94 Figures relate to sheep and lambs shorn during the year ended 31st March, 1965.
- Item 93 Comprises shorn wool, including crutchings, from sheep and lambs but excludes "dead" wool pulled from skins. The figures relate to the year ended 31st March, 1965.
- Item 95 Estimated total production for the year ended 31st March, 1965. Includes milk used in factory production of cheese and condensery products and the estimated whole milk equivalent of cream consumed as sweet cream, and cream used in factories for butter making. Includes milk used to make farm butter and cheese.
- Item 96 For statistical purposes a factory is defined as any establishment which is engaged in the processes of manufacturing, assembling, treating or repairing and in which four or more persons are employed during any period of the year or power other than manual is used.
- Item 97 Figures relate to the average number of persons employed *over the whole year* and not *over the period worked*. This distinction is particularly important where seasonal industries, such as meat or fish preserving, whaling or fruit packing, are involved. For instance, a factory which operates for six months of the year only and employs, say, 20 persons throughout that period has an average employment of 20 *over the period worked* but an average of only 10 *over the whole year*.
- The figures shown include working proprietors, but exclude all persons engaged in obtaining raw materials (e.g. fallers and haulers employed by sawmills) and all persons engaged in selling and distribution.

- Item 100 Excludes amounts drawn by working proprietors.
- Item 101 *Value of output* is the selling value *at the factory* (i.e. the value at the point of sale *less* all selling and distribution costs) of all goods made or processed during the year and includes the amount received for other work done, such as repair work, assembling and making-up for customers. Any bounty or subsidy received on finished products is included.
- Item 102 *Net production* is the value added in the course of manufacture and represents the sum available for payment of wages, rent, depreciation, other sundry expenses and for interest and profit. It is obtained by deducting from *value of output* (see note to Item 101) the cost of goods consumed in the process of production. The costs deducted are those of materials used, fuel, power and light, lubricating oil and water, repairs to plant and buildings, tools replaced, and containers and materials used for packing.
- Items 103, 104 The values shown for *land and buildings* and *plant and machinery* are the depreciated book values at the 30th June, 1965. They include estimated values in cases where premises and plant and machinery are rented by the occupier.
- Item 105 The figures relate to the activities of building contractors who undertake the construction of new buildings; the building operations of Commonwealth, State, semi-government and local government authorities; and work performed by "owner-builders." *Houses* exclude temporary dwellings and also dwellings attached to other new buildings as, for example, dwellings attached to shops.
- In general, building operations may be undertaken only after the issue of a permit by the Local Government Authority concerned. There are, however, areas in some Shires where this condition does not apply. In these "non-permit" areas the activities of "owner-builders" are generally not recorded, and some other building operations may also be excluded. While it is possible that such omissions may have some significance in a particular Local Government Area, it is considered that they do not materially affect the totals for Statistical Divisions.
- Item 108 Figures include particulars of roads under the control of the Main Roads Department throughout the State. At the 30th June, 1965, the Department had assumed control of 3,463 miles of "main" roads and 7,989 miles of "important secondary" roads. In addition, it had provided 42,004 miles of "developmental" roads, for the maintenance of which individual Local Government Authorities are responsible.
- Item 113 Figures relate to the year ended 30th June.
- Item 118 Figures represent net indebtedness. Sinking fund balances, which aggregated \$137,266 at the 30th June, 1964, have been deducted.

## NOTE ON LOCAL GOVERNMENT AREAS

In Table I and in the *Explanatory Notes and Definitions* and the *Footnotes to the Tables*, the district designations and names used are those which were current at the 30th June, 1965.

Changes in names and designations which occurred during 1964-65 are shown below.

The Town of Carnarvon was amalgamated with the Shire of Gascoyne-Minilya to form the Shire of Carnarvon, with effect from the 1st March, 1965.

The Town of York was amalgamated with the Shire of York, with effect from the 15th March, 1965, to form one Local Government Area named the Shire of York.

The name of the Shire of Geraldton-Greenough was changed to the Shire of Greenough, with effect from the 19th March, 1965.

A change of name which occurred after the 30th June, 1965 and has therefore not been taken into account, is as follows:—

The name of the Shire of Trayning-Kununoppin-Yelbeni was changed to the Shire of Trayning, with effect from 10th September, 1965.
